

Hi All! Quick reminder about lamp safety for Lab 2: The high voltage compartment of the lamp is covered by a Plastic Safety Shield as shown below:

NEVER remove the Plastic Safety Shield from a lamp. Do NOT use the lamp if the Plastic Safety Shield is not securely installed.

Do NOT touch any components in the high voltage compartment.

Do NOT touch the lamp under the high voltage compartment. It can be observed in the mirror on the bottom, no fingers needed.

ONLY place the 40 volt power connection on this labeled input wire:

SAFETY GOGGLES are Available in EDS 38-501, use them.

ASK the STAFF if you have any questions.
